Please find below and/or attached an Office communication concerning this application or proceeding.

Art Unit: 1632

The election with traverse of Group II claims and the species restriction in the response filed April 26, 2001 is acknowledged. However, applicant in the response has not elected the specifically name species of a "therapeutic agent which encodes a protein" or "a therapeutic agent which encodes an antisense oligonucleotide". Applicant attempted to elected the species of "a therapeutic nucleic acid", however no such election is required nor is the election the same as the required election of a "therapeutic agent which encodes a protein" or "a therapeutic agent which encodes an antisense oligonucleotide". Thus, the response lacking the election of the restricted species is non-responsive.

Since the above-mentioned amendment appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE **within the statutory period as indicated in the previous restriction.** The time period of the restriction letter has expired 3 months from the mailing date (March 26, 2002) of the restriction letter of record.
